

Instructions for GCT Bayonne images in Google Chrome

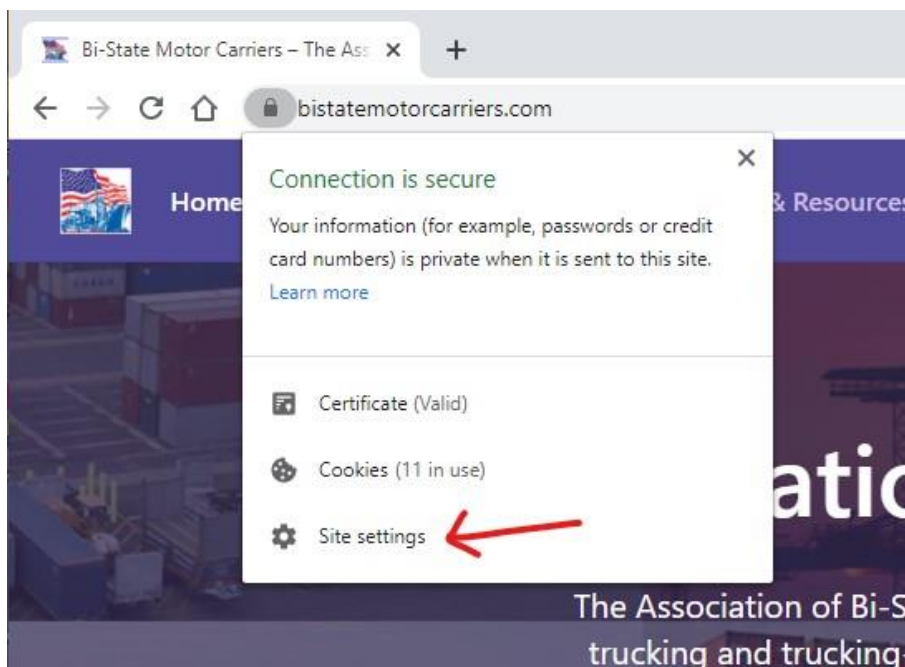

In the latest version of Chrome, Google has begun to block content from servers that are not secure (http). This website is secure (https), however the GCT Bayonne images are on a site that is not.

To see the GCT Bayonne images in Chrome again, follow these steps:

Step 1: Go to bistatemotorcarriers.com and click on the “lock” in Chrome’s address bar next to our URL.

Step 2: Click on “Site Settings”

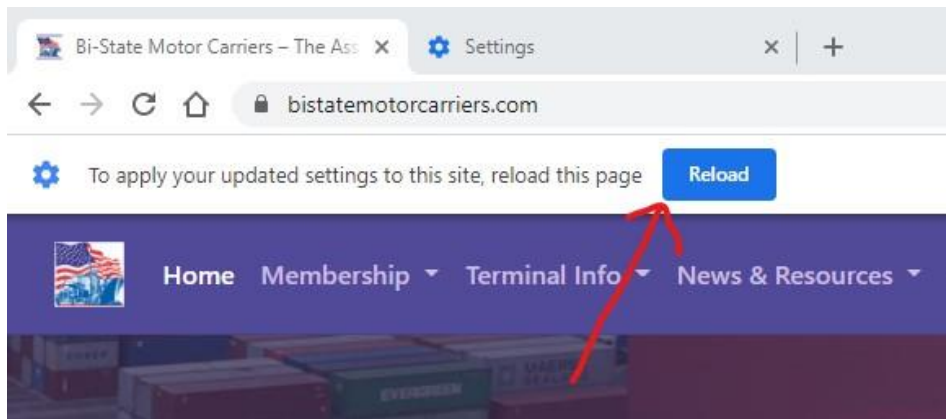

Step 3: Scroll down to “Insecure content” and click where it says “Block (default)”

Step 4: Click on “Allow”

Step 5: Switch back to our website’s browser tab and click “Reload”

You should now see Global Bayonne’s web cam images.
